Professional Summary

Frontend Developer skilled in React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, and REST API integration. Experienced in building responsive web applications with reusable components, dynamic routing, and modern frontend practices. Transitioning into software development after 11+ years of professional experience in technical recruitment and business operations.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, SCSS

Libraries & APIs: React Router, Context API, REST APIs

Tools: Git, GitHub, Postman, Chrome DevTools, npm

Projects

SeriesHub – Series Discovery Web Application

Tech Stack: Next.js, React.js, JavaScript, Tailwind CSS, TVMaze API, Git, GitHub, Vercel

- Developed a responsive series discovery application using Next.js App Router.
- Integrated the **TVMaze API** to search and display TV series with details such as ratings, genres, language, status, and images.
- Implemented dynamic routing to create detailed series pages with summaries, cast, episodes, and season information.
- Developed search functionality with real-time API integration to display relevant TV series based on user queries.
- Designed a responsive and mobile-friendly user interface using Next.js and Tailwind CSS, ensuring seamless navigation and optimized performance.
- Used Git, GitHub, and Vercel for version control, source code management, and application deployment.
